

Historic Property

This beautiful and historical property has served as a pillar of the Rochester community for decades.

The Rochester chapter of The National Association of Colored Women Clubs operated from this property for many years. In the 1980's and 1990's various groups and organizations held fundraisers to benefit children as well as other community activities.

This three-story house is located conveniently on the west side of Rochester. It is only five minutes away from the 390 expressway, as well as downtown Rochester and the Rochester International Airport.

This renovated property has gorgeous hardwood floors and natural wood trim. The vintage decor showcases an old-world antique style.

Come and enjoy this home for your next event!
